Percentage: 79%

**Matriculation,** 2018  
Angels English Medium School Deesa, Gujarat  
Percentage: 93%

## PROJECTS

---

### Food Munch 📄

- Developed a MERN FULLSTACK Food-delivery website in which frontend is built using **ReactJs**, and the backend is served by **NodeJs** and **ExpressJs**, where the required data to be displayed is fetched from the **MongoDB** database.
- User **authentication** is provided using **bcrypt library** and by generating **authToken** at the time of user login.
- The users' data along with their orders are stored in the database.
- Users can add items of their choice to the cart, edit the cart, order food and can see their past order history.

### Portfolio Website 📄

- Created a responsive Portfolio website of my own that describes me.
- Used **HTML**, **ReactJs** as framework and **CSS** for styling.
- Contact me form is created that allows visitors to send me their messages.
